

Statement from the Governor's desk Ella Bright-Starr

Good day everyone.

So we have hit a crazy patch in our government. I have been accused of some very serious crimes, People resigning, the lies and misinformation that is going around as I have been silent since the incident that night, which is my right.

Well as there are so many in this state that have been through our justice system, you all know there is no justice in this state, especially with a judiciary that swings heavily against the accused.

I have had my day in court for defending my home, my life, and watching our rights be taken away even more. This case is not just about me but everyone in the state that has property. If people can come do what they want to your property just by standing over the other side of the border, Or throwing a brick into someone's window from the road.

And i know there is a "Cover" Story of a welcome card, But i have lived in the home for over a year and a half that most of the state knows about because i have invited many people to my home to show it off and quote every time "No point in having it if you cannot show it off". Not to mention two people that have expressly said they do not like me. Why would I be welcomed to the home by someone that doesn't like me? These are many questions you should ask yourselves.

With this, I am resigning from Governor, I gave it a go and had the odds stacked against me from day one. I thank you to all those that supported me over the few months I got to be here and attempted to clean things up.

God Bless America and God speed
Governor Ella Bright-Starr

Afternoon,

It has become more and more abundantly clear that you are trying to bypass me, and I'm beginning to become overly frustrated. At this point Doc will not entertain any meetings with the executive nor the legislature unless I'm present. This appears to be the only course of action. You had originally reached out to Doc a while back via e-mail regarding the Lawyer Announcement. I approached you about it, and you said it was because he was closer to the top of your e-mail list, and that you were going to e-mail me, you just hadn't had the chance yet. I'm still yet to receive that e-mail.

I then find out today that you approached him regarding the Cabinet Meetings. It's very well known that Department Heads are the primary point of contact for the Cabinet Meetings, so please explain to me why you can't take 5 minutes out of your day to send me an e-mail and ask questions regarding the Cabinet Meeting, or even just ask to setup a meeting with me? The San Andreas Judiciary is the only Government Agency that is not part of the Cabinet. I'm not entirely sure why, but I was added to the Cabinet briefly and removed a couple days later and was informed that the Judiciary is not part of the Cabinet.

Going forward, should you have any questions regarding the Legal System or the San Andreas Judiciary, direct them to me. Not Doc, not anyone else within the Supreme Court.... Me. This needs to stop. I will then relay the information onto the rest of the Supreme Court.

I really don't appreciate being bypassed and it needs to stop. This is my last sign of good faith.

Thanks,

Kylian J. Clarkson
Chief Justice, Supreme Court
State of San Andreas

I then got this back

Tell me why someone who I have burned bridges with gives me a welcome to the home card, Something that is a nice thing to do for someone.

My lawyer being disbarred for no reason, all other lawyers being conflicted or not wanting to go against the judges, included some members of PDO due to them working for judges at their side business the tobacco shop or being Quote "their work wife".

It is clear where the case is going and what is going to come of it. It was lovely to be with you all as your governor. Sorry that I couldn't be that check and balance, the person between the people and the departments. God knows I tried.

Good luck all and remember that FREEDOM ISN'T FREE.

Governor Ella Bright-Starr.
